

HOW WILL YOUR PARTY RUN?

The birthday child and their grown up will be brought into the park first by your party host. You will be shown to your party room and table.

Your host will take your cake and pop it in the back to stay safe whilst the children are playing. They will then run through the events of the party and discuss any details with yourselves.

Your juice and cups will be on the table ready for you, please do not hesitate to ask for a refill as and when needed. If you are a gold/exclusive party you will also be given your hot drinks tokens and your Birthday Play Pass.

Your child can then begin to play, whilst your host lets your guests in and confirm any allergens with the parents. If any of your guest arrive late, that do not check in with the party host, please alert a member of staff ASAP.

We will then begin with our games and dances. If you are a gold/exclusive party, this is when your special character will come and say hello and the children can have their photographs taken.

The party will then be called into the party room where will sing happy birthday with the birthday cake. The children will then have their food, followed by ice cream for desert. Once finished the children can return to play.

Your host will use this time to cut and wrap the cake to your chosen number of pieces, and pop it in your party bags provided by Charlie Park. These will then be brought to your table.

The host will call an end of session announcement when the party has come to an end. You will receive a feedback form regarding your party.
